

Spark Junior Discovery Box

Spark Junior Discovery Boxes

A new addition to the *Spark!* range of themed discovery boxes are our specially curated *Spark Junior* kits for children aged 3 to 5 years old.

First launched in 2013 at Randwick's Bowen Library in Sydney, these have become an outstanding success in the community with over 6000 loans recorded.

A unique feature of the *Spark!* range are the carefully researched and beautifully designed accompanying notes allowing parents and educators to provide children with maximum benefit from the contents; with things to try, interesting facts to discuss and links to other resources.

*"Hi Adam,
We love your kits! We have been trying to introduce science experiences into our libraries and find it a challenge to provide appropriate support for non-science staff to deliver programs. Your kits fill a gap for us – thanks!
Suzy Arthur-Smith, Richmond Tweed Regional Library"*
